

East Midlands Stochastic Analysis Seminar
sponsored by the London Mathematical Society
hosted by
The University of Hull

**Organisers: Z. Brzezniak (Hull), K. D. Elworthy (Warwick),
X.-M. Li (Nottingham-Trent), H.Z. Zhao (Loughborough)**

Friday, 4th of March, 2005

Venue: TBA

A one-day meeting will be held in the Department of Mathematics at the University of Hull as part of the LMS funded programme of the East Midlands Stochastic Analysis Seminar.

Speakers:

14.15 **Natalie Eisenbaum (Paris 6):** On the infinite divisibility of squared Gaussian processes

15.00 Coffee

15.30 **Franco Flandoli (Pisa):** Mathematical models in the direction of K41 turbulence theory

16.30 **Martin Hairer (Warwick):** Ergodic properties of the 2D Navier-Stokes equations

For more information on speakers and events, please contact:
